4 Port DVI Video Splitter / Distribution Amplifier

StarTech ID: ST124DVI

Eye-catching digital images on multiple screens! StarTech.com's ST124DVI video splitter lets you share DVI signals across four displays without losing image quality. As well, it acts as a signal amplifier, allowing you to locate your DVI monitors up to 33 feet (10 m) away from your computer and still enjoy crystal clear digital images. The ST124DVI is easy to install and set up and provides flawless, distortion-free digital video to your DVI-enabled monitors, projectors, or plasma screens. Backed by StarTech.com's 1-year warranty and FREE lifetime tech support.

Applications and Solutions

> Connect DVI enabled projectors, monitors, plasma screens, commercial billboards, and wall display systems
> Ideal for graphic design, classroom use and training seminars
> Great for use in tradeshow, POS, healthcare, airport, train station and bus terminal settings

Features

> Accurate and reliable reproduction of digital video signal, with no signal attenuation or distortion
> Fully compliant with the DVI 1.0 standard established by the DDWG
> Simple setup for quick connection in minutes
